Yes the site is down right now. So sorry Roobs! I know you're super duper excited as should be and it sucks not to share lol. 1901 is a bit busy at the moment and I'm sure she'll get to it as soon as she is free.

btw...rebroobeh. I just saw your profile avie....adorable family!!!! Is that shalwar kameez? Absolutely adorbs! Which part of SE Asia you from, if you don't mind my asking? Hubster is from Pakistan (Punjab) and so are my parents! So my boys look just like yours in shalwar kameez LOL!

Hi Mumtaz thanks dear :woohoo: it's really nice to find you here .well I am from Syria and my hubby is from Saudi Arabia :) I think in some way or another we all look alike :lol: my boys are wearing (Thobe) the traditional men clothes for Saudies but it really looks like what they wear in Pakistan :) . I love the fact that we are all from different countries yet share the love and the same goal of wishing to have twins :bpacifier: :ppacifier: ...Good luck

Same here! Share the love!!! :D

You're right the Saudi outfits do look a lot like the traditional indian/pakistani outfits. I remember back when I was in Jeddah men would wear those all the time and I'd think how amazing it is to belong to such different countries and cultures and yet still have the same basic attire...pretty much all originating from the common religion. Loved it!

And yes...somehow we do all end up looking alike haha! ;)

I hope everything is ok for 1901.

Here I am obsessing and the only people who know why I'm obsessing I can't get to. :laugh:

Victoria and Heidi, I hope your tests give you the bright BFP you are looking for. Fingers crossed!

Me, I got nothing but a strong desire to nap and eat then nap again. 5 more days until ultra sound!

1901 told me to tell you guys that she has just had her little baby yesterday! I'll let her get into the details of her happy happy birth when she gets back. But right now as you can all guess I'm sure, she is super busy. So that is why the site isn't up yet. I'm confident she'll get right on it the moment she gets a chance.

Hope everyone is doing good! We need more bfp's!!!

Heidi3boys the line is there I can see it but it maybe the trigger you have to keep testing and see if the line gets darker :) I wasn't sure about my BFP until 12dpo when the line got really darker and there was no chance that it could be the trigger

Heidi, I couldn't see the pic. :(I really hope this is it for you.

Victoria, how are you doing?

Treens, I'm not sure. I thought there should always be 2 because we always have a little LH in our system. Are you trying twice a day? Not FMU?

Re:PIZ girls What's going on with the new site :(

Posted by Treens - 2013/12/12 09:58

i checked 3 times yesterday at 9:30, 1:30 and 7 lol dont want to miss it and there was only 1 line. no not FMU

on my 4th day of bravelle after 5 days of clomid, i think the only side affect I am having is a bit of a headache.

watching like crazy for more news form you ladies!

Re:PIZ girls What's going on with the new site :(

Posted by MumtazG38 - 2013/12/12 14:51

I sometimes get those sort of opks too. Where there is no line. Usually in the beginning right after a period, or right before one. So yes, usually there is a second line...doesn't always have to be though.

@Heidi:

That does look like a bfp...of course could easily be the trigger. Hard to say. Here's to hoping tomorrows test will bring that BLARING BFP! :D

Congrats 1901! Can't wait to hear birth story.

Even though I took a break I've been checking on ya ladies. Happy everyone is here while site is down. So I've decided to give it a go again. The break was nice and needed. I took Femara 7.5mg on cd 3-7. Today is cd 9. I took opk and clearblue digi opk, which was negative yesterday and today but look at other opks. Confusing! Top is today.

Well FX for everyone this cycle. :bbabydust: :cloud9:

I thought I would ask a question here.. Like I have said before I took clomid days 3-7 well at least I think it was 3-7, anyway when I started my period really light and brown for days one and two. The 3rd day it was a heavy normal period. So I took the first pill of clomid does that mean I took it from 1-5 of 3-7 like I thought I did? Thanks ladies!

Re:PIZ girls What's going on with the new site :(

Posted by Bama mommy - 2013/12/13 03:53

Treens - I'd stay with 150 unless your ovaries feel like oranges and are hurting/ burning.

Toler23 - I'd count that as 3-7.

Good luck ladies!

Hay ladies, I can't wait to hear the birth storie.

You all seem to sound like your doing well inspite of the site glitch.

I have a question - has anyone gotten a pos OPK as early as cd 9. I can't temp but I keep track of my cervical position and cm. yesterday and the day before I gog high fertility on my CBFM and today again . My CP and CM are confirming the positive. But that three days high fertility so far and not yet peek. From e where my cervical is I can tell it won't be SHOW till late tomarow or the next morning.

My question is anyone ever get this many high days? I was taking a insane amount of soy. Any how when I got the first high result I scraped the cycle because I didn't feel like I was ready to O healthy eggs the next day but now that its lasted three and doesn't look like I'm going to O for another day. I feel like I wasted a possibly awesome cycle . In this any one else's exp. three- 4 days of high fert before O?

Heidi, I still haven't seen the pic. I'm willing to go on faith. :)

I'm so excited for the ladies trying this month!

I am getting more and more morning sickness. I'm 6+1 today. My ultrasound is 4 days away. My kids are sick with a bad cold. I'm just trying to stay healthy.

Natalie, i have heard of people having a couple days of high leading up to peak. I think it is pretty common. Especially if your body is gearing up to O.

Treens, keep it at 150. :)

Toler, I was always told first day of full flow, not spotting even if the flow is light you still count it as day 1.

thanks!

I would love to see photos Rabroobeh!! Hope everything goes well tomorrow for you!

I hope the morning sickness goes away ladies, but for twins it will be worth it!

Heidi, I am sad for your bfn. But what mountain are you think about climbing?

Treens, I would take more tomorrow. Unless your body is telling you not to. I have taken more FSH just minutes before taking my trigger.

And to answer your other question, I am driving my DH bonkers at this point. :P He is ready for a little break after a year of TTC talk. But with only one functioning ovary and tube, I don't feel I can afford a break. I just have to take a BFP whenever it is given to me.

Seems like everyone is in here since the new site is down, forgive me for posting a question in here in here in hopes you know the answer....

If you are not being monitored, when should you trigger? Almost positive? Definite positive? Are OPKs pretty reliable in detecting when to trigger? What happens if you trigger early/late? Thanks

Currently on cd 4 of 100 mg cd3-7 u/p and planning to trigger, no medical problems

We are going to go ahead and train to and try to climb and summit Mr. Rainier September 2014. It will be to promote awareness for special needs kids, promote our foundation (The Determined Parents Foundation) and to promote The World CP Challenge which is happening the whole month of september! I have a TON of training to do...as most of you know Im a touch overweight and out of shape...LOL So climbing a mountain is how I choose to kick it up a notch and get in shape! LOL Key words here are TRY and ATTEMPT...lots to do and lots of money to raise...but we are going for it!!! If anyone wants to promote or help me out with this...here is a link to my fundraising page...no worries if you cant! Hugs to you all and I will still be lurking and watching you all!
